

TRIOBIKE

hello cargo big  
let's deliver more

## triobike cargo big

The new triobike cargo big has an extended load platform that's an impressive 107 cm long, giving you tonnes more space for all kinds of deliveries: bigger boxes, longer trees, wider TV screens or happier kids with their legs stretched out. The new size basically means that every fourth load is free! It's an exciting solution for fast and sustainable inner-city delivery.

## extra long, extra strong

We've left nothing to chance with the triobike cargo big. The frame has been reinforced at all key pressure points to be able to cope with industrial heavy duty use. It has an extended center tube to make it extremely rigid and completely stable with heavy loads.

## heavy loads, light bike

We've carefully crafted every component of the cargo bike to ensure it is the lightest cargo bike in its category. This means you can be faster and more agile in city traffic. The sharp right turn feature makes for surprisingly easy handling and maneuverability. Every detail is geared for top performance.

## don't break a sweat

Our e-power electric motor systems let you flatten hills and make long trips with the pod fully loaded. The powerful **Brose Drive S** mid drive motor, with its torque of 90 Nm, does all the work for you in complete silence. The stylish display helps you keep track of the battery level, distance and speed and you can choose exactly how much help you want from the motor. All e-systems provided by Triebike comply with EN 15194 standard.

## brake like an F1 car

The Triobike cargo big is equipped with hydraulic disc brakes, the best available technology directly inherited from the car industry. Even at high speeds and with the front box fully loaded, applying a small squeeze on the brake levers will get you to a full stop in a short distance.

## easy turn right

Just like on our regular Triobike cargo, the new Triobike cargo big front wheel offers a wider turning angle to the right. This makes the bike surprisingly agile in small spaces in urban environments.

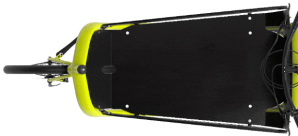

## colourful rides for colourful minds

Triobike is all about your freedom to choose and express who you are. Our wide selection of colours, styles, features, accessories and customisation options will open up a world of possibilities for you to play with. Hood and seat colours never fade thanks to a special water resistant, fire tested and 100% UV stable materials.

## choose your accessories

The Triobike cargo comes with a list of great accessories such as plywood panels, seats and hoods. We've also created a special two-kids box for families and a super-tough, theft-proof flight case box to keep your precious cargo safe at all times.

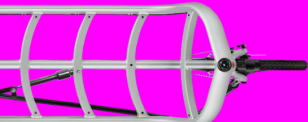

## flight case boxes

When you run a small business, time is money. Attach the super secure flight case box to your Triobike cargo big and speed through the city delivering on time, every time. The flight case box is large, lightweight, waterproof and strong, ensuring your contents are 100% safe. It also comes with a secure lock for complete peace of mind. Traffic jams are so yesterday.

## space for kids

With 62 cm of inner width, the Triobike cargo big is among the widest 2 wheels cargo bikes on the market, and can easily carry up to two kids. The seats are soft, comfortable and free from harmful chemicals, PVC or heavy metals. They come in a variety of colours like 'petrol', 'cardinal' or 'grass' and look great. Fearing those rainy days? don't worry: we also have a complete selection of hoods for both one and two kids setup. Great rides are waiting you and your kids no matter the weather!

## riding on rails

Thanks to the one-piece steering rod, the Triobike cargo big is capable of delivering a great riding experience, with a very precise feeling of direction.

Together with the optional steering damper, the steering becomes smoother and easier to ride, even with a fully loaded bike in high speed on a bumpy road.

Together with the optional steering damper, the steering becomes smoother and easier to ride, even with a fully loaded bike in high speed on a bumpy road.

## a silent ride

The Triobike cargo big can be equipped with Gates Carbon Drive and the Enviolo CA gearless continuously variable transmission. Thanks to the belt and the internal gear hub, this combination is almost maintenance free and gives you an even more silent and smooth riding experience. Relax and enjoy the birds singing!
